

## Ci-800DP Series

Remote Digital I/O system

### Features

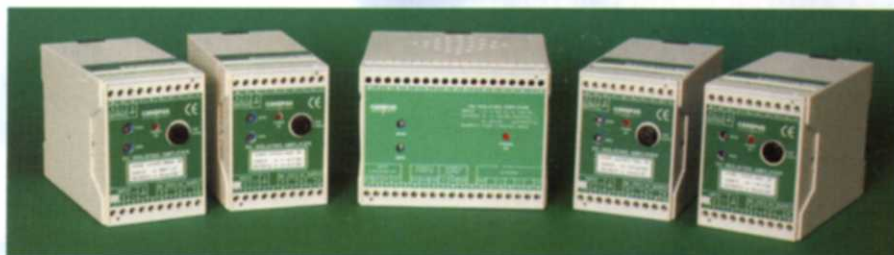

- Design conforms with IEC standards
- Integrated Profibus-DP slave interface (12Mb)
- Module capacity: 12 x 24VDC DI / 8 x 24VDC, 0.2A DO

### Applications

- Remote Machine & Process control applications having low I/O count clusters
- Intelligent Motor Control centres

## SIM Mini series

Signal conditioning & Isolation modules

### Features

- Available in Single/Multi channel/Splitter types
- 3 port , 2KV Isolation
- Accuracy  $\pm 0.1$  % of FS
- Universal power supply 90 -270VAC, 50Hz
- Design conforms to IEC standards
- CE certification for single channel modules

### Applications

- AC/DC Drive systems
- Power monitoring systems
- PLC control panels
- DCS control panels
