Ci-800DP Remote Thermocouple Cluster Transmitter

Thermocouples

Features

- 8 Ch. software configurable Remote Thermocouple cluster transmitter
- Integrated Profibus-DP slave interface (upto 12Mb)
- EMC compliance with IEC 61000-4-4 for EFT bursts & IEC 61000-4-5 standards for Surges
- Compact DIN rail mountable enclosure
- Modular expansion options

Applications

- Remote Process signal transmission
- Migration from conventional Analog transmitters to Fieldbus based system
